What is Chow Chow BSC

Chow Chow BSC is a unique memecoin project in the BSC Ecosystem that combines the power of blockchain technology with the vibrant memecoin community. Our mission is to create a safe and inclusive space where members can engage, express themselves, and explore the world of crypto.

Tokenomics

Chow Chow BSC total supply is 8,000,000 tokens. The initial token distribution takes place on Uniswap. For every buy order, $Chow applies total of 9% tax, while a 2% tax is levied on each sell order, directly injecting tokens into the Uniswap liquidity pool.This approach ensures transparency, with no hidden fees or team funding charges. It ensures that users can trade the token freely without any additional costs and keeps developers on an equal footing with regular investors. Chow Chow BSC pays 1% $CHOW Auto Rewards to holders on every transaction while 6% tax going to fund project.
